Grant Receives the Chicago Children

CHICAGO Nov 17 A [illegible] ing the Lo[illegible] Veteran [illegible] Grant from the Grand Pacific Hotel to the exposition building where about [illegible] school children began coming in troops to see him He did attempt to shake hands with the little ones but as there were many thousands of them he contented himself [illegible] occasionally addressing one kissing a [illegible] and accepting the numerous bouquets they bore. The president of the board of education of Philadelphia (Hoyte) made a pleasant address to Gen Grant introducing and expressing the good wishes of the children Gen. Grant replied

I am always glad to be received by the school children. I met them in San Francisco and at Portland, Oregon and I have met them elsewhere. I see in the children of to day the future safety of the nation and in view of the importance of them in the future they must be carefully nurtured and educated now The best harbinger the country can have is education. If education were universal there would be no danger to our free institutions. Without it, I should despair of the republic.

Democratic Dilemma in New York.

UTICA, Nov, 17 —Gov. Seymour says he is unaware of a movement being on foot to settle differences in the democratic party of the state. NEW YORK, Nov, 17 —A lottery agent has brought suit against Postmaster James in the supreme court of the state, for alleged illegal detention of his letters for which he claims [illegible] damages. The case will probably be transferred to the federal courts The letters were detained under orders from the postmaster general, based on a law authorizing him to detain letters concerning lotteries, etc It is claimed by counsel that the law is unconstitutional, as it makes the postmaster general the sole and exclusive judge jury and sheriff, gives the party no opportunity to be heard, and deprives plaintiffs of their property without due process of law, and is a violation of the provisions of the constitution.

Base Ball Matters

NEW YORK, Nov 17 —Speaking of base ball matters the *Herald* says The question of forming two leagues, one in the east and the other in the west has agitated base ball circles all through the season that has just closed. One of the veteran managers of the game, Harry Wright of Boston has strenuously opposed the movement since eastern clubs have reaped such a golden harvest in California and on the line of travel across the plains. Another method of settling the vexed question is likely to be adopted viz The formation of a league for the entire country from the Atlantic to the Pacific with about twenty clubs, composed of the best players in the United States.

THE UTE POW WOW

NATURAL CUSSEDNESS OF THE RED MAN PROMINENTLY DISPLAYED

The Chiefs Lie Like Dogs--Ouray's Authority Fast Disappearing.

[SPECIAL DISPATCH TO THE OREGONIAN.]

DENVER, Nov 17 —A dispatch from Los Pinos dated the 15th says that the outlook for either an amicable adjustment of affairs with the Indians or proving the guilt of the parties implicated in the White river difficulties is extremely discouraging and that unless there is a change of front on the part of the Indians a speedy termination of the commission's labors may be looked for so far as their dealing with the Utes direct is concerned Ouray's power to day is trembling in the balance and within the next few days we shall probably witness the final act of success on his part in establishing his absolute authority over the tribe or his virtual dethronement and the ascendency of the war faction. It is pretty well established now that in all councils held by the Indians since the trouble at White river Ouray has only succeeded in exacting from the hostiles the promise to appear before the commission and that as to giving testimony and all further proceedings they were to decide for themselves.

Sowerwick who treated Adams so well during his presence in the hostile country, remembering his kindness on the former occasion testified at length but lied from beginning to end General Adams and his escort have already stated that Sowerwick accompanied them from the point where they secured the captives to the camp of the soldiers, and that the first night out on Grand river they held a council at Sowerwick's tent at which he spoke The council lasted from 11 P M until 6 in the morning He replied to General Hatch's interrogatories saying that he did not know whether there had been a fight with soldiers whether a massacre at the agency whether there were any women or whether any soldiers or Indians had been killed Gen Adams then put the question "Was I ever in your house on the Grand river?" He answered "No" Sowerwick was then discharged and Adams made the following speech to Ouray

The last answer was not true. I did sleep in Sowerwick's tent, and there we held a council from 11 o clock until 5 o clock in the morning Sowerwick was present and with the others was fully cognizant of what was done, and to day he comes here and says he does not know anything For that reason I believe he has not spoken the truth nor does he wish to speak the truth. I believe also that none of them wish to speak the truth and therefore it is almost unnecessary to go any further They have refused to mention the name of a single Indian while they well know the names of all of them and I now present the situation to you so that you can recommend some other course whereby we may execute the orders of the government. The government wants us to ascertain who were engaged in the difficulties at White river We want the names of the guilty parties, and if you think we cannot find out who they were we had better go home"

Ouray replied

I cannot force them to say what they do not wish I brought them here that they might speak for themselves. He afterwards added Show me any act of law by which a man is compelled to convict himself

Ouray afterwards acknowledged that he was afraid of assassination. At last accounts the chief was very ill

Rose Meeker lectured here to-night on "The Indian Question" She goes east.

THE KELLOGG--SPOFFORD CASE AGAIN.

Testimony before the Committee at New Orleans.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW ORLEANS Nov 17 —The senate sub-committee investigating the Kellogg-Spofford case met this morning

Henry Howser night watchman at Kellogg's residence in 1876 testified regarding the visits of returning board officials to Kellogg Witness appeared somewhat nervous. He had heard a great deal of talk, but the only conversation to which he could swear positively was that he heard Kellogg say that the house of representatives of the state legislature had gone democratic Blanchard and Jewett visited Kellogg frequently and Blanchard told witness that they were working on election returns these parties usually came in the back way Cross-examination showed that the governor and all who came in carriages came in the same way the governor's office being most accessible by this entrance Witness admitted that he had tried to get a place in the custom house and that a friend of his had written a letter to Kellogg to which witness name was signed, threatening to go before the committee and testify unless witness got a place Blanchard was at this time clerk in Kellogg's office

Louis F Garrick testified that a few months ago P G Desland, secretary of state in 1876 told him that the legislature that elected Kellogg to the senate had no quorum if he Desland, was not a poor man he would make a clean breast and tell all he knew, witness advised Desland to do so, witness wrote to Senator Gordon about Desland's disaffection to the republicans repeating in the letter what Desland had said Desland seemed sore because he could get nothing to do all he had was a clerkship in the postoffice, which only paid about $50 per month

Senator Kellogg objected to the admission of this testimony on the ground that the U S senate had decided that the Packard legislature was the only legal legislature of Louisiana and the question could not now be reopened

Messrs Hill and Vance, a majority of the committee decided the testimony admissible Both the above witnesses were called by Spofford Kellogg will not offer direct testimony

SOUVENIRS OF MADAME VIGEE LE BRUN. With a steel portrait Published by R. Worthington New York

The subject of this book was a portrait painter of decided talent and with a vivacity of manner and a wealth of general accomplishments that made her a favorite at court and country She was born in the gay capital at Paris in the year 1755 and died at the ripe old age of eighty seven Her letters cover the most notable period of society's splendor and embody all the grace and gayety of ante revolutionary days She was a beauty and talented hence the doors of fame's temple opened to her early approach and fortune blessed her with kindest smile She painted altogether six hundred and sixty portraits, and it was said of them that they were master pieces of delicacy and expression Kings and queens gave her sittings and both with brush and pen she recorded with equal fidelity and attractive coloring all she saw and heard We hardly know which to admire most her portraits or her pen pictures Her life was brilliant and from beginning to end a succession of artistic triumphs She knew every person of note in her day and her sketches of the brilliant world in which she moved as a bright star make an important addition to historical portraiture Her style as a writer is exquisitely interesting and marked with keen discrimination and scholarly culture This sketch of Marie Antoinette will give a fair idea of her delicate skill

Marie Antoinette was tall admirably proportioned, plump without being too much so her arms were lovely, she had small and perfectly shaped hands and charming little feet She walked better than any woman in France holding her head very upright with a majesty which denoted the sovereign in the midst of her court, without this majestic bearing detracting in the least from the sweetness and grace of her whole aspect In short it is very difficult to give any idea to those who have not seen the queen how very elegant and beautiful she was Her features were not at all regular she inherited the long, narrow oval peculiar to the Austrian nation Her eyes were not large and were almost blue in color her expression was clear and very soft her nose was thin and pretty and her mouth was not too large though her lips were rather thick The most remarkable thing about her face was the brilliancy of her complexion I never saw anything like it and brilliant is the only word to express what it was for her skin was so transparent that it allowed of no shadows I never could obtain the effect as I wished paints failed to depict the freshness the delicate tints of that charming face which I never beheld in any other woman

LESSONS FROM MY MASTERS—CARLYLE TENNYSON AND RUSKIN By Peter Bayne Published by Harper & Brothers New York For sale by Bancroft & Co, San Francisco

Mr Bayne has become well known in the the world of letters by his "Life and Letters of Hugh Miller," and his work on "The Chief Actors in the Puritan Revolution In the present work he does not sit in cold judgment upon his masters nor abandon his place altogether at their feet as learner and listener He rather gives such information concerning their works which is of use to those less familiar than himself with them and rehearses in brief and simple terms a few of the principal truths they have expounded, facts they have stated, with glances at some of their errors, and lessons they have taught

The union in one volume of three biographies of so varied character as is here presented is a combination of such rare worth as to command general and attentive interest. The adamantine philosophy of Carlyle the poetic idyls of Tennyson and the beautiful word painting of Ruskin form a triumvirate of talent, impressing us with practical truths charming sentiment and captivating comment The study of either one of these eminent men is worthy of a volume in itself and here we have the essential essence of the three presented with scholarly grace and free from prejudice or undue partiality Besides the scheme of his life part first gives us the early history of Carlyle and his works on the French Revolution Chartism Hero Worship Cromwell Democracy Howard and Philanthropy Cant and Sham Religion Clergy and Men of Letters Doubt and Belief Frederick a Homeric Hero The Partition of Poland Frederick the Poor Man's Lawyer and Voltaire

Part second treats of Tennyson in 142 pages, and contains the history of his first poems, the two versions of Maud The Dream of Fair Women and Palace of Art [illegible] The Lotus Eaters Ulysses Sea[illegible] In Memoriam poems on marriage and the Idyls of the King

Of John Ruskin we have his [illegible] championship of Turner his own drawings his description of nature his theory that beauty is typical of the Divine attribute Lamps of Architecture Stones of Venice and three volumes of Modern Painters with [illegible] nature and of man

THE WASHINGTON LEGISLATURE.

Last Day's Proceedings and Final Adjournment

[SPECIAL DISPATCH TO THE OREGONIAN]

OLYMPIA, Nov 1[illegible]

No legislative body has ever convened in this territory that has been marked with the earnest endeavor to legislate in the best interests of the whole people that has characterized the body which adjourned at 5 30 this morning The remark is common in this country that we have too much legislation and while the truth of that remark is universally conceded it is indisputably true that our last legislature has proved the exception to the general rule Good and wise laws have marked its proceedings. A growing feeling of sectionalism has been entirely obliterated and the mutual respect that is now felt as well as the close friendships that have been cemented between the two sections of our territory will prove of incalculable benefit.

It was my intention in this my last letter to mention by name some of the gentlemen who had distinguished themselves during the session as active workers and able men but in canvassing the list I find it so large and each in his way so deserving, that I am constrained to say comparisons are odious and content myself with simply returning thanks for the handsome and kindly resolution with which I was complimented

TUESDAY MORNING NOV 18 1879

THE DAY OF THE NEW NORTHWEST

That portion of the new northwest which will be developed by the railway system now contemplated and in actual progress contains an agricultural area exceeding 300 000 square miles. It includes Dakota Montana Idaho Washington a large portion of Oregon [illegible] of Wyoming and part of Utah In this estimate of an agricultural area of 300 000 square miles allowance is made for certain areas of mountain and desert so that the total area for agriculture will not be less than that expressed by the above figures Within ten years much of it will be settled and cultivated Within twenty years much of it will be densely inhabited Fifty years hence it will have a population with an average density of that of Indiana say fifty to the square mile. This will place in the now new northwest a population of twenty five millions From this simple statement it will be seen that within the lifetime of persons now living the northwest will overshadow all the east or all the south Here is the territory and the fertility of its soil the excellence of its water the purity of its air and the salubrity of its climate are unsurpassed Room is wanted for surplus population of the older states, which will be crowding more and more and here in the new northwest that room is to be found. The railways will bring the country into notice and convey settlers to every part of it Mineral resources will be developed in many localities fully equal to those in any of the older states And besides coal and iron, there are inexhaustible deposits of silver and gold As a land of grain and grass it has no equal And generally in extent and variety of resources it is behind no other part of the American continent

Such a country as soon as the railways open it, must begin a very rapid progress It cannot be otherwise Old notions as to its alleged desert character begotten of ignorance have been fully exploded Only a few years ago the whole country between the western border of Iowa and the Cascade and Sierra range of mountains was pronounced barren. Travelers would return and say the Northern Pacific was located in a desert country and that the road was a humbug It was said that Nebraska was worth little except perhaps a small area on the lower Platte. The idea of farming in Idaho Montana and Eastern Oregon and Washington was entertained by nobody When the Walla Walla valley was first settled it was supposed that only narrow strips of land along the streams would ever be cultivated and this idea was entertained even by the settlers there till five or six years ago Oregon's eastern counties, now found to contain more than three-fourths of the productive land in the state were deemed only fit for pasturage Twenty years ago most of us would have given up without question or regret the whole of that part of the state for an Indian reservation. At their present rate of progress those counties, and especially Umatilla and Wasco will soon be by far the most populous agricultural counties in the state. When they get railway transportation they will send more agricultural products to market than the entire valley of the Willamette. Already the eastern section of Washington territory is beginning to rival the western in population and wealth, and soon will go ahead of it Quick and cheap communication by means of a railroad through the gateway of the Columbia river, with branches serving all important localities in Eastern Oregon, Washington and Idaho, will now speedily be established; and the great trunk line of the Northern Pacific, stretching across the continent and perhaps a connection through Idaho with the Union Pacific at Salt Lake, will complete the outline of a system which will give the development so long waited for by the Pacific northwest Puget Sound will have its direct connection by the Northern Pacific over the mountains, as well as the connection with Portland and the Columbia river line

Nor is there long to wait. The preparations now making embrace this whole plan, and there are ample resources at the command both of the Northern Pacific and the Oregon Railway and Navigation Companies to carry them out. The day for which the northwest has waited is at hand Let nobody doubt it.

SINGING LOW AGAIN

A few days ago dispatches from Washington announced that the Bourbons of American politics were about to change their course. In congress, at the coming session, they will not do anything that will give their adversaries "a pretext for keeping alive sectional questions," that is, they say they will not. If this means anything as the Chicago Times puts it, it must mean that the Bourbon has at last learned something that he will stop being a sectional politician and become national, admitting what he has always hitherto denied, namely, that our country is politically one nation, and not merely an association of nations or league of independent states. Perhaps it means that at the coming session he will appropriate money to pay the national marshals, which he refused to do at the proper time, unless, for the cause of state supremacy, he should be permitted first to repeal the national election laws His adversaries he doubts not, "will concoct numerous plans to force partisan and sectional discussion," but the brave Bourbon abstaining from all discussion on such questions will thrust his southern head in the sand, so that the people can not see by his rump that he is the same old Bourbon bird they are hunting for. "Senator Edmunds, in all probability, will have some resolutions in regard to the changes of the constitution but the southern Bourbon " will vote upon them without discussion How will he vote upon such resolutions without disclosing to the country whether he has changed from his sectional attitude to the proper national attitude, or not Unfortunately for himself and his cause, the Bourbon cannot hide himself and his politics in any such ostrich-like way

Singleton of Illinois, and Chalmers of Mississippi, and the whole crowd of those who forced the issues of the extra session in the hope of re-establishing the political theories of the state-sovereignty rebellion now say that the scheme to wipe out national election laws and war legislation will not be renewed Nothing, says one of them, "could be more senseless than to renew a fight that has been decided But the opinion of this same partially sobered politician that the majority in congress will have learned something by the lesson of the year and will incline to a policy of establishing good feeling between the north and south must be taken with some hesitation What policy can the southern representatives pursue that would lead to such a result Of course they could establish good fellowship with the north by abandoning the [illegible] political ideas and espousing northern ideas Southern statesmen [illegible] and all the retrogressive notions and reactionary policies these terms imply are [illegible] the north [illegible] they are doctrines essentially hostile to the nationalism which the north firmly believes to have been established by the civil war The south can establish good feeling with the north by giving wholly up these retrogressive southern ideas, but it cannot do so while these ideas continue to be held as fundamental by the politicians of that section Will southern representatives give up their sectional and [illegible] shape the course of legislation by their opposite ideas? There is not the least present ground to believe they will do anything of the kind There is as yet no visible evidence that they have acquired the faculty of learning anything in the school of experience Heretofore many a time and oft have we heard that this departure was going to be made but the achievement seems about as difficult as for the Ethiopian to change his skin or [illegible] years to the discipline of the tamer to forget the wild tricks of his ancestors

AMERICAN MANUFACTURES ABROAD

Recently published statements of Albert D. Shaw consul of the United States at Manchester England on the results of American and other foreign competition in the English markets have attracted very much attention. The facts reported and seems well sustained by proofs that it is subject to [illegible] at the bottom of the continued depression in the manufacturing centers of England It is true that only a comparatively small percentage of foreign manufactured goods is sold in England but the danger always is that unless rock bottom prices are accepted for English manufactures the American French and German products will at once take their place. So in reality the cheap and excellent quality of foreign manufactures forces down the profits of English manufacturers and in many cases renders it impossible for them to live

An article in the *International Review* for November presents some strong statements showing the general progress of our manufactures abroad It is reported as a well known fact that American cutlery is sold in Sheffield ten per cent cheaper than it can be manufactured there, and that our cotton goods are sold in Manchester a city which has held the supremacy of the world in cottons for half a cent a pound cheaper than the same quality can be produced in that city Our coals are sold in Newcastle, and one enterprising American gives away a stove with every ton of American coal American street cars are sold in New Zealand and our locomotives find a ready market in Italy The English war office uses American locks while continental postoffices have introduced the Yale lock box Russia has declared American scales the standard scales of the empire We have invaded the German markets with our nickel plating and the Prince of Wales, in purchasing American plate for his own use reminded he British dealer that in at least one "high industrial art he had found a new competitor Bottled products of St Louis and Milwaukee distilleries triumphed over Bass McGuinness, and one hundred brewers of Austria and Bavaria at Paris while a Philadelphia firm captured the grand prize for larger beer in casks Still much the greater part of our exports consists of raw materials and agricultural products the proportion being about eighty per cent of these to twenty per cent of manufactured goods.

But because we have both the raw materials for manufactures and the food to sustain our people, we must in the nature of things have advantages over those countries which are compelled to import largely both of raw materials and food So the *Review* says that "at a time of universal depression we have met those nations which held a monopoly of the world's markets met them in their strongholds, and established the fact that American manufactures are second to the manufactures of no other nation and that, with a proper and patriotic understanding between capitalists and laborers we can command a fair share of the buying world's patronage, and command that patronage with larger profits to the capitalists and higher wages to the laborer than can be made or paid in any other country It is the improved methods increase of capital and greater resources that will give the United States the advantage over foreign competitors"

The Atlanta militia company has been sending home accounts of kind, cordial and even magnificent receptions during its trip through northern cities which leads the Vicksburg *Herald* to remark "This is a very serious matter The magnificent charity of the north when the south was struck unto death by the tropical plague this very curious capture of our bold soldier boys, and our vast cognate interests are absolutely destructive of that sectional bitterness which has been for so many weary years the political capital of the Bourbon asses in the south, and the stalwarts of the north Why, if these sort of influences are allowed to produce their legitimate results the Bourbon speakers in the south will feel queer when they refer to our enemies in the north"

The speculation in wheat during the last three months has been unexampled Chicago has gone wild over it and if the local papers are to be trusted, all classes of the community have tried their luck at gambling in food The basis of all their transactions has been the firm belief that the demand from Europe would be at least 200 000 000 bushels, while the supply from this country could not exceed 160 000,000

Gen Singleton, a prominent democratic representative in congress wants to put Gen Grant at the head of the army with a salary of $22,000 a year, and says he finds many democrats who agree with him, and if no one else leads in the matter he will not hesitate to himself introduce a bill for that purpose The anxiety of democrats to provide for Gen Grant is an interesting circumstance at the present time.

The New York *Herald* thinks the grandest monument a dead man can have is the wish of some lowly man that he was able to erect one This is very pretty for sentiment but what really gives a man (or woman) a front place in the cemetry is an attested copy of the score showing that he (or she) actually went three thousand quarter miles in as many quarter hours

The Japanese government has been most shamefully fleeced by the English in the construction of the first railroad in the empire The line is only eighteen miles long and narrow guage at that but it cost $[illegible] 000 per mile The superintendent was paid the enormous salary of $3000 per month

In its headlines announcing [illegible] the morning of the [illegible] the result of the elections the Chicago *Times* said, "This is a Nation with a big N and don't you forget it"

John Russell Young who went around the world with General Grant, and knows a good deal about his affairs, estimates the value of the general's property at $100 000

TUESDAY MORNING, NOV. 18, 1879.

WEATHER PROBABILITIES.

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, Nov 18, 12:20 A. M.—For Pacific coast regions, generally clear weather.

CITY.

WILLAMETTE WOOLEN WORKS AT SALEM. It gives us pleasure to chronicle the incorporation of a new industry in Salem, or rather the revival of one which was destroyed by fire. The Willamette Woolen Works Company yesterday morning filed articles of incorporation in the office of the secretary of state, with the following incorporators: R. P. Earheart, T. W. Davenport, Geo. A. Edes, Lewis Johnson, L. E. Pratt, W. H. H. Waters and Col. C. A. Reed. The object of the new incorporation is the erection of woolen mills in that city, and the manufacture therein of all kinds of woolen goods and fabrics. The capital stock has been fixed at $150,000, and an organization will be effected at once. Shares $100 each. It is generally understood that the old site of the Willamette Woolen Mills, together with the privilege of the immense water power, has already been purchased by the new company, and work on the building will be soon commenced. This is certainly cheering news and it behooves the citizens of Salem to aid this enterprise to their fullest ability and thus insure its success, and at the same time advance the best interests of the place. The new company means business and it is to be hoped that the enterprise will be carefully fostered.

REBUILDING ON THE RUINS.—Messrs. G. Ainslee & Co., with commendable pluck and energy, have erected an extensive planing mill and sash and door factory on Second street, between E and F., on the site of their building recently destroyed by fire. The main building is 50x100 feet, with a wing 30x44 feet, both two stories high. The first floor of the wing will be occupied by Nicolai and Davidson, the remainder of the building by Ainslee & Co. They have the boiler and engine in position and will raise steam this afternoon. These as well as their planer, band saw and mitering machine, went through the fire, but were repaired and made as good as new with slight expense. They succeeded in obtaining a mortising and a tenoning machine in this city, and will be ready for work in a week. Other fine machinery of latest pattern has been ordered from eastern manufactories and will be received and placed in position in time for spring work. The building is in many respects more convenient and roomy than the old one, and the dry house is arranged to accommodate an immense quantity of lumber.

PARTICULARS OF CAPT. COLLINS' DEATH.—The following special from Boise City gives the particulars of Capt. Collins' shocking death: The Fort Boise ambulance team of four horses, with Major John Green, commander of the post, Capt. P. Collins, of Company A, Twenty-first Infantry, and W. W. Calkins, citizen, and James Reinolds, of Company G, as driver, got frightened yesterday afternoon at some blouses that were hanging near the road as they passed the post hospital and became unmanageable and ran up the hill towards the officers' quarters. The driver was thrown off and Major Green, Captain Collins and Calkins jumped out. The team ran on and smashed up the wagon badly. At first it was not supposed that any one was seriously hurt, but Captain Collins struck on his head and was insensible for a short time, but recovered from the shock and talked with his family, but during the night became insensible, and died this evening from congestion of the brain.

DASTARDLY ASSAULT.—Sunday night, says the Telegram, "the police and constables of East Portland were busy on this side of the river in pursuit of a boy named Gallineaux, who yesterday afternoon beat a Chinese boy of his own age in a merciless manner. He first struck the unoffending Celestial in the face with a large stone, and when the latter was about to resist, young Gallineaux, urged on by his father, who was a witness of the affray, renewed the assault and beat his victim so badly that he is unable to move today. A warrant was issued for the apprehension of the offender, but he had fled, it is supposed to Vancouver, and thence will try and reach The Dalles. An officer was sent to Vancouver to try and secure his arrest.

RAFT BROKE LOOSE.—At an early hour yesterday morning an immense raft of logs, containing between 700,000 and 800,000 feet, belonging to Mr. Harvey Hogue, of East Portland, and anchored near the city, broke loose and scattered all over the river. It is supposed that the large quantities of drift wood coming down stream had fouled with the boom and wrenched it from its fastenings. Many of the logs caught in the ferry cable and detained the boat for nearly an hour. The river was literally covered with the timber for miles. The owner had a number of men and boats trying to gather them yesterday. This is the first accident of the kind he has experienced for several years. His loss may reach $2000.

CHURCH DEDICATION.—Pursuant to notice the first church of the Evangelical Association was dedicated on Sunday evening, in the city, corner of Eighth and Clay streets. Revs. J. Bowersox and W. C. Kautner officiated in the pulpit during the day. The religious services were interesting, and $572 70 were secured in cash and subscription toward liquidating the debt of the church and parsonage, which was well done considering the circumstances. The hearty thanks of the congregation and pastor are tendered all well wishers and participants.

PRISONER EN ROUTE.—Deputy Sheriff T. B. Dewitt, of Wasco county, arrived here last evening, having in custody a prisoner named R. F. Butler. This individual is under sentence to the penitentiary for the term of two years for the crime of embezzlement. Butler entered a plea of guilty; and says that he will go to the bastile and put in his time like a little man. Officer and prisoner will start for Salem this morning.

FROM ASTORIA.—The following specials to the Merchants' Exchange were received from Astoria yesterday: 2:50 P. M.—British bark *Ardmoriste* arrived at 2:30 P. M.; British barks *The Frederick* and *Dochra* are inside in Baker's bay; British ship *Sarmatian*, for Queenstown, crossed out at 1 P. M.; bark *Rival* is outside; British bark *Isle of Bute* dropped down to Fort Stevens.

ADDITIONAL MEMBERS.—In the list of members to the Merchant's Exchange, published by us yesterday, the following were overlooked: A. P. Hotaling & Co. importers of liquors, wines, etc.; Muller & Richards, importers of paper and printer's material; G. L. Hibbard & Co., importers of boots and shoes, and G. A. Webb, agent of Commercial Union Insurance Co.

THE MATTER SETTLED.—Judge Bellinger yesterday rendered a decision in the case of the Portland Light Battery, asking that the county court be compelled to pay its reasonable expenses. The decision grants this claim and practically annuls the recent action of the county judge in curtailing the allowance of the various militia companies.

YOUNG PEOPLE'S MEETING will be held this evening in the vestry of the Baptist Church, commencing at 7:30 P. M. Subject of the evening will be "The Freedom of Christians." The meeting will be led by Mr. Turner. Everybody invited to attend.

HOUSE BURNED.—The dwelling house of Wm. Cassady, at Canemah, was destroyed with its contents yesterday afternoon; loss about $3,000, upon which there was an insurance of $1000. The cause of the fire is unknown.

MISS VON BERG BREAKS DOWN IN THE 25 MILE MATCH.

Interesting Amateur Races at Turn Halle —The Great Firemen's Contest To-Morrow Night.

The large audience at Turn Halle last night was probably the best amused crowd that has gathered there since the pedestrian contests commenced, not on account of the particularly brilliant exhibitions of speed, but because they saw how awkward by amateurs get around the track until they became accustomed to it by repeated laps. Usually these novices in a contest start out at almost a gallop, and invariably fall at the first corner. When two or three start together they stumble at the first corner, and in their efforts to save a direct fall generally fall harder, thump themselves violently against the sides of the hall or the stage, get tangled up, but finally extricate themselves and start off with a smile, the audience laughing, jeering and applauding vociferously. On the sides of their rounds they slow up in making turns, and seldom repeat their first disaster.

At 8 o'clock Joseph Haeberstadt, Tommy Norton and Sadie Donley made their appearance for a mile scratch heel and toe walk. Joe was clad in spangled tights just like a real circus performer, and looked for all the world like the famous bareback rider, Robert Stickney, the Apollo Belvidere of the American arena. Joe won the race and enthusiastic plaudits in 8:32—the best time, professional or amateur, made on the track. Norton was second in 8:40; Sadie Donley third in 9:48. Miss Sherman then gave an exhibition walk of five miles in the following time: First mile, 11:02; 2d, 11:25; 3d, 11:16; 4th, 11:30; 5th, 10:26; total, 55:59.

At 9:15 Al. Kaddlerly, George Zeller and Otto Brunz, started on a five mile run. Kaddlerly made his first mile in 6:10, Zeller in 6:12, Brunz in 6:55. The latter left the track on the second mile for three minutes and in that time lost so much that he was practically out of the race, but he kept up a moderate gait until his competitors had finished. Kaddlerly kept a slight lead until the tenth lap of the fourth mile, when Zeller passed him and kept ahead until the close, winning in 35:8, the best five mile time ever made here, Kaddlerly half a length behind. The following is the score by miles:

Zeller—6:12, 7:27, 7:16, 7:13, 6:59. Total 35:08.

Kadderl—6:10, 7:17, 7:16, 7:29, 6:57. Total 35:17.

Sig Schilling and Joe Haeberstadt then ran a mile, the latter winning easily in 6:57. Sadie Donley then gave an exhibition heel and toe walk.

Misses Alice Donley and Lillie Denman were as fresh and buoyant as at the beginning and no accident preventing, will complete their task of 1000 quarter miles in as many quarter hours at 6 o'clock to-morrow morning.

THIS WEEK'S PROGRAMMES.

To-night Misses Sherman and Sadie Donley, will give exhibition walks together. At 9 o'clock Emmet Fitzgerald and a well known amateur will run five miles. At 10 o'clock two other well known amateurs will run one mile. At 12 o'clock to-night, the managers, Messrs. Love & Thall, will serve clam chowder in the dining hall on the first floor of Turn Halle, to the firemen. Tickets have been issued to all the companies and members can obtain them by applying at their respective houses.

To-morrow night at 11 o'clock will commence the great event of the season, a seventy-two hour "go as you please" contest between members of the Portland fire department, for which the following entries have been made:

No. Ones—Joseph Thompson, age 28 years; hight 5 feet 7 inches; weight 156 pounds.

No. Threes—Henry L. Griffin, age 24 years, hight 5 feet 7, weight 155 pounds.

No. Fours—Geo. Wilson, age 25, hight 5 feet 6½, weight 155.

No. Fives—Theo. Johnson, age 23, hight 5 feet 8, weight 135.

H. & L. Co.—Wm. McLean, age 30, hight 5 feet 10½, weight 192.

New Armory Hall.

One of the largest gatherings since the beginning of the exhibition walks at Armory Hall was present last evening, more than half of whom were ladies, to witness the 25 mile walk between Miss Von Berg, champion lady walker, and Wm. Dugan, an amateur of this city. At 7:45 o'clock both contestants were started and began their task at a brisk walk. After a while Miss Von Berg started on her trot and passed her adversary, who, not liking this move on the part of the lady, started off after her at a rapid rate. This he continued until he had passed her, when he gradually slowed down, allowing her to get in the lead, which she steadily maintained, and at the 4th mile had placed a gap of over four minutes in her favor between her and her plucky antagonist. From this point up to the sixth mile she steadily increased her distance, and on the 7th mile Dugan retired for treatment, his slippers having bothered him considerably. After walking for at least 3½ hours Miss Von Berg was compelled to temporarily retire, as her ankle, which was sprained Wednesday evening last, hurt her so that she could not walk. She was in the lead at least 13 minutes, and had she not been so affected would have made Dugan sweat.

The interest manifested in this match was evident from the frequent rounds of hearty applause that greeted each contestant as they made a spurt or endeavored to catch up with one another. The following is the score up to 12:30.

Von Berg, 1st, 8:30; 2d, 11:07; 3d, 10:30; 4th, 9:33; 5th, 10:44; 6th, 11; 7th, 11:54; 8th, 10:40; 9th, 12:30; 10th, 10:43; 11th, 11:47; 12th, 10:34; 13th, 11:14.

Dugan, 1st, 8:58; 2d, 11:59; 3d, 11:45; 4th, 12:07; 5th, 11:18; 6th, 12:14; 7th, 11:55; 8th, 10:51; 9th, 12:31; 10th, 10:43; 11th, 11; 12th, 15:14; 13th, 16:54; 14th, 18:36; 15th, 16:32; 16th, 15:10; 17th, 16:05; 18th, 15:12; 19th, 18:20.

The compulsory retirement of Miss Von Berg in this match was unfortunate, as that lady intended to make a display that would be creditable to her, but Dame Fortune ruled otherwise.

This evening there will commence at this hall the seventy-five hour contest between Miss Von Berg and T. B. Sturges, of this city. This will be a novel contest, as the lady is going to attempt to beat her best former record for three days; and as Sturges is a young man noted for his pluck and endurance combined with his remarkable walking abilities, he will no doubt make it rather tropical for his antagonist. As soon as the track is cleared in this hall of the quarter mile walkers there will be inaugurated a series of local races and walking matches that will be both amusing and interesting.

On Saturday evening the several military companies will enter three members each to compete in a twenty-four hour go as you please match for a purse of one-half of the gate money, to be divided into four prizes of 50, 25, 15 and 10 per cent. of that amount.

The quarter mile walkers, Miss Florence and Miss Wiley, are still in the best of spirits and confident of success. This morning at 5 o'clock they will have completed their 900th quarter, and on Sunday morning at 5 o'clock they will have completed their long and arduous task.

JOHN MUIR.

PORTLAND, Nov. 17, 1879.

TO THE EDITOR OF THE OREGONIAN:

Your reference to Prof. Muir last Thursday, reminds me of a promise which he made when I met him in Alaska, last August, that he would deliver one or two lectures in Portland if he could get a fair audience. I ventured to pledge this and also an intelligent appreciation.

Doubtless many of your readers recognize the name as one of the writers in the magazines. His subjects are scientific or rather have scientific basis and his mode of treating them discloses the attributes of genius. His writings and conversation are in a high degree original, instructive and entertaining. He has been studying nature for years, several having been spent in California.

There is a large number of cultivated people in Portland who would greatly enjoy his lectures. Let us hope that enough will be able to attend, at least, to redeem our reputation from the charge of a frivolous and demoralizing taste.

WOMAN'S AID SOCIETY.

TO THE EDITOR OF THE OREGONIAN:

Having listened last Sunday evening to an able discourse from one of our city pastors upon the trials and needs of working women, I am moved to appeal through your columns to the spirit of justice and benevolence thus freshly awakened among us, for a practical demonstration of the public sympathy.

There is in our city an organization sustained entirely by voluntary contributions and gifts, which is devoted to the aiding of respectable women who are striving for self support. In this house they are provided with quiet and comfortable accommodations at prices suitable to the boarders' ability to pay, and in many cases entirely free from expense, until situations for labor can be found. Many faint hearts and weary hands there find renewed strength and courage for the battle of life. Although this organization is scarcely two years old, so much good has been done that those ladies interested in its management feel that they cannot suffer the work to go down. Money is needed, and we ask those who have money and are interested in efforts to help those who are struggling to get an honest living to remember the Women's Aid Society. We have recent occasion for grateful acknowledgment of a generous gift from a friend to us. May other gifts follow.

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD EDGE HILL WINES.

Mr. Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. *California Physicians* have pronounced their preference of it to all other. Doctor Cox, government revenue officer at Cincinnati, Ohio, says in his report, that after ten years' close investigation he can safely say that very few, if any, pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of litharge and other dangerous drugs in all their French wines, that there is great danger of losing the trade of the Argentine States. Other proofs could be cited, were it necessary, to prove the superiority of the best class of California wines and brandy. Orders from responsible parties, addressed to Wm. Scheffler, or Geo. H. Beebe, St. Helena, Napa county, Cal., will receive prompt attention.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of Hon. Fonte's de wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 25. Hodge, Davis & Co., Portland, Wholesale Agents.

The weather has again cleared up.

The thanksgiving party has been abandoned.

A special term of the circuit court convened this morning, called for the purpose of trying the cases of the state vs. the recent executive and administrative officers of the state.

Among the pleasant events of the week must be recorded a private wedding party at the Catholic church this morning, in which Sam'l R. Cuplinger, Esq., and Miss Katie R. Savage, eldest daughter of Mr. and Mrs. William Savage, of this city, were principals. The happy couple left on the 1 o'clock train for their home in eastern Oregon, followed by the best wishes of a host of friends.

Gov. Thayer has commuted the sentence of James Sexton and Charles Darlke, to expire on the 15th of the present month. Both prisoners were sentenced from Multnomah county for one year, commencing Dec. 11, 1878, for the crime of larceny. George A. Murty's sentence has been remitted, and expired Nov. 14, 1879.

HOW WOMEN WOULD VOTE.

Were the question submitted to the ballot, and women were allowed to vote, every woman in the land who has used Dr. Pierce's Favorite Prescription would vote it to be an unfailing remedy for the diseases peculiar to her sex. Dr. Pierce has received hundreds of grateful testimonials of its curative power.

IOWA CITY, Iowa, March 4, 1878.

Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir: For many months I was a great sufferer. Physicians could afford me no relief. In my despair I commenced the use of your Favorite Prescription. It speedily effected my entire and permanent cure. Yours thankfully, MRS. PAUL R. BAXTER.

White's Prairie Flower.

Taken before retiring, will insure a good night's rest, with an awakening in the rosy morn to health, courage and vigor. For coated tongue, bad breath, sick headache, or any disturbance arising from dyspepsia or torpid liver, it is without a peer. Its action on disease is entirely different from any medicine ever introduced, quieting pains almost instantly. The hue and cry raised against it by patent medicine men, who have foreseen in its advent the destruction of their nefarious business, and the thousands of unsolicited testimonials flowing in from all parts of the New World is a sure indication of its great merits. Trial size at all Drug Stores. Half pound bottles 75 cents.

THE PUBLIC DOMAIN.

REPORT OF THE GENERAL LAND OFFICE—PLUNDER AND DESTRUCTION OF TIMBER ON THE PUBLIC DOMAIN.

WASHINGTON, Nov. 11.—The annual report of the general land office has been handed in to the secretary of the interior. It shows that during the fiscal year ending June 30th last, 9,333,353 acres of public lands were disposed of, and 9,434,996 acres were surveyed, in addition to 734,591,256 acres previously surveyed. The total number of acres of public domain still unsurveyed is about one thousand and eighty-one million. The disposals were mainly as follows: Homestead entries, 5,260,111 acres; timber culture entries, 2,766,574 acres; cash entries, 822,574 acres (including 165,996 acres entered under the desert land law); grants to railroads, 278,334 acres; swamp lands patented to states, 75,358 acres; other grants to states, 186,392 acres. The amount of land surveyed the last fiscal year exceeds by 414,769 acres the total area surveyed in the preceding 12 months, and the whole report shows a falling off of some 773,000 acres in cash sales, state selections, scrip locations, and lands patented for railroad grants. The increase in area taken up by settlers under the homestead and timber culture laws, has been sufficient not only to counterbalance this falling off, but to make the aggregate disposals for the year greater by 647,204 acres than the total for the previous year. The increase in homestead entries was 841,766 acres, and in timber culture entries 896,180 acres. Owing to existing laws for disposal of public lands for homesteads and timber culture, it is shown that during the last fiscal year, with a larger disposal of land, there were received from all sources, $1,883,113, less by $139,418 than the amount received during the fiscal year ending June 30, 1878.

The acting commissioner reports that under the various acts of the forty-fifth congress, and with aid of the appropriation of $40,000 granted last March for protection of timber on public lands, efforts have been continued to suppress depredations, but they are yet extensive, and the interests of the government and those of the people now residing, or who may desire to settle in the region of public timbered lands, require that they should be still pursued with unrelenting earnestness and vigilance. A large amount of timber has been recovered and considerable sums of money received as compromises in suits brought by the government against timber depredators, and many other suits are still pending.

The powers of the department are so enfeebled by the limited appropriations for detecting and punishing timber trespassers that but a tithe of the plunder and destruction of timber on the public domain can now be prevented, and there is a great necessity for more prompt and vigorous action than the government has heretofore taken for the protection of its interests.

In conclusion the acting commissioner adverts to the necessity of employing a larger number of clerks, embracing among them men of experience and ability; and, in this connection, he calls attention to the insufficiency of existing provisions to meet the requirements of this branch of the public service. He says: "It is certainly time that adequate measures were adopted to bring this office into a proper condition for discharging promptly and efficiently the difficult and important duties devolving upon it under the laws of congress."

THE ELECTION CASES.

[From the San Francisco Call.]

The election pledge was not a voluntary act in the full sense of the word, but an act consented to. It was the party, not the individual which invented and enforced the pledge. Again in a legal sense, the pledge does not bind them to anything. There is no legal impediment to each official's drawing all the salary his office is entitled to and keep it for his own use. They could violate their pledges in this respect without doing violence to the precedent established by some of their predecessors. The difference between the pledge of Dunn and associates and those made by the opposing candidates is in making a specification of a particular act of retrenchment. Other parties promised to reduce expenses twenty-five or thirty per cent, without specifying any measure of retrenchment. We do not know that either party will keep its pledge. The presumption is based upon past experience, that neither will. Yet it is proposed to punish one party in advance for having made a more specific promise than its opponents. The decision of Judge Wright raises the question, whether the people, in convention assembled, can pledge their nominees to any measures which will reduce taxation. Such a promise may, according to Judge Wright's deductions, be construed as a "bribe" to voters. Every pledge of a pure and economical administration of law can, by analogous reasoning, be construed as a "bribe." It is of vastly more importance to the people that a general system of economy should be introduced than that certain officials should return a few dollars of their salaries each month to the treasury. The republican convention, last June, promised, specially, that the rate of taxation for city purposes should not be above $1 on the $100 valuation. Here was a "bribe" to the electors, or at least to the portion of them who are taxpayers. Elect our ticket, the convention said, in effect, and your taxes shall not exceed $1 per $100. As the rate has varied about $1 50 per $100 valuation, the "bribe" was a very considerable one.

[From the San Francisco Stock Report.]

Judge Wright's ruling is a point against the workingmen who were elected to office at the last election, on account of having taken the salary pledge. The intricate turnings and twistings of the law may deprive these men of the offices to which they were fairly elected, but the people who elected them will feel a deep disgust for the law and a hearty contempt for the men who put its machinery in motion, should such a result ensue. Many people who were opposed to the workingmen's ticket think its candidates were fairly elected, and ought to be allowed to take and hold the offices without question. The pledge to cover a portion of their salaries back into the treasury was in the nature of reform, and can only be constructed by legal technicalities as having been a bribe to voters. Whatever the final result may be in the case, public sentiment is in favor of the elected workingmen hold the offices to which they were chosen.

Monetary matters in the local market are only moderately active and though borrowers are not so numerous as a few months ago, there is a good class of commercial paper in the market which is somewhat sought after and rates of discount are reasonably low. While the demand from parties engaged in the wheat trade has been quite free in the aggregate, it has been met with rather more readiness than in former years owing to the anxiety with which capitalists whose money has long been idle seek such investment.

General trade matters are quite active, and some signs of the era of prosperity noted in other parts of the country are manifest here. Among them is the enterprise of rebuilding and putting in operation again the woolen mills at Salem. This factory was the first built in the State, and was long a leading establishment in Oregon. If the present projectors of rebuilding succeed in establishing a reputation for the fabrics of their factory equal to that formerly possessed by the Salem woolen mills they will be fortunate, and their well known energy and enterprise are assurances of such a result.

The wheat market locally is very quiet to-day as holders are very much confirmed in their hopes for a recuperation of prices by the news from abroad. At the same time shippers are not just now generally pressed, as far as we can learn, for cargoes, and are therefore not inclined to make much of an advance in bids. Altogether the pressure to sell is about as great as to buy, and hence transactions are by no means frequent, $1 97½, being about the highest quotable rate.

Tonnage is not abundant and the few vessels in sight are firm in their demands for full rates.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States, for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United States, and comes back with all the modern methods, instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lecture.

DR. PAUL M. BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life, how to be healthy and happy, if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures, nor can he tell everything necessary for suffering humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional Consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to, their mode of treatment and permanent cure, as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully, but has made them a life study, as a few moments' consultation will prove.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system and yet this subject is neglected by the majority of the Medical Profession.

IT IS TRUE

That persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted until death becomes a welcome messenger to carry them out of their miserable existence.

Those who call in time upon DR. PAUL M. BRENAN need have no fear but what he will restore them to perfect health and vigor, make their body pure and their mind content, if they will only follow his advice and treatment.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail. No Quack Nostrums used: no slop treatment: no false promises.

Everything strictly confidential under all circumstances.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. All fine surgical Operations performed.
